List of figures	iv	7 WELDING PROCEDURES 30
List of tables	iv	7.1 Qualification of a welding procedure 30
Preface	v	7.2 Prequalified welding procedure 32
About the author	vi	7.3 Qualification by testing 33
About the contributing author and editor	vi	7.4 Requalification of welding procedures 34
Acknowledgements	vii	8 WORKMANSHIP 35
1 CONCEPT OF DESIGN GUIDES 1	1	8.1 Edge preparation 35
1.1 Background	1	8.2 Assembly 35
2 INTRODUCTION 2	2	8.3 Preheat 36
3 TYPES OF WELD 3	3	8.4 Tack welds 37
3.1 Weld types	3	8.5 Distortion and residual stress 38
3.2 Fillet welds	5	8.6 Cleaning and dressing welds 39
3.3 Butt welds	8	9 WELD IMPERFECTIONS 40
3.4 Edge preparations	12	9.1 Weld categories 40
3.5 Prequalified joint preparations	13	9.2 Levels of inspection 42
3.6 Standard weld symbols	14	9.3 Imperfection levels 43
4 WELDABILITY OF STEEL 17	17	9.4 Weld defects 46
5 WELDING PROCESSES 18	18	9.5 Weld repairs 47
5.1 Introduction	18	10 WELD INSPECTION 48
5.2 Fusion welding process	19	10.1 Introduction 48
5.3 Terminology	20	10.2 Visual examination 49
5.3.1 Weld metal	20	10.3 Magnetic particle examination 50
5.3.2 Partially mixed weld metal	20	10.4 Liquid penetrant examination 51
5.3.3 Fusion (boundary) line	20	10.5 Radiographic examination 52
5.3.4 Heat-affected zone	20	10.6 Ultrasonic examination 54
5.3.5 Multi-run welds	20	11 PRACTICAL CONSIDERATIONS 55
5.4 Manual metal arc welding	21	11.1 Clearances for welding 55
5.5 Gas metal arc welding and flux cored arc welding	22	11.2 Site welding 57
5.6 Summary of characteristics of welding processes	24	11.3 Economical design and detailing 58
5.7 Welding positions	25	12 REFERENCES 59
6 WELDING CONSUMABLES 26	26	APPENDIX
6.1 Manual metal arc welding	26	A ASI Design Guide 2 comment form 61
6.2 Gas metal arc welding	27	
6.3 Flux cored arc welding	28	
6.4 Prequalified welding consumables	29	

LIST OF FIGURES

		<i>Page</i>			<i>Page</i>
Figure 1	Weld types in AS 4100	3	Figure 18	Schematic diagram flux cored arc welding	22
Figure 2	Weld use by joint type	4	Figure 19	Welding positions for plate butt welds	25
Figure 3	Typical applications of fillet welds in steelwork connections	6	Figure 20	Welding positions for plate fillets ...	25
Figure 4	Fillet weld size and details	7	Figure 21	Imperfections in butt welds	44
Figure 5	Fillet weld size in lapped plates	7	Figure 22	Imperfections in fillet welds	45
Figure 6	Types of butt welds	8	Figure 23	Solidification cracks	45
Figure 7	Typical applications of butt welds in steelwork connections	9	Figure 24	Schematic diagram of magnetic particle examination	50
Figure 8	Examples of use of run-off plate, backing bar, extension plate	11	Figure 25	Schematic diagram of liquid penetrant examination	51
Figure 9	Terms applicable to full penetration butt welds	11	Figure 26	Principles of radiographic examination	52
Figure 10	Terms applicable to partial penetration butt welds	11	Figure 27	Examples of imperfection detection using ultrasonic examination	54
Figure 11	Weld edge preparation terms	12	Figure 28	Angular limits for joint preparations for various welding techniques	55
Figure 12	Construction of a welding symbol .	15	Figure 29	Clearance on an angle cleat welded to a beam web	55
Figure 13	Basic welding symbols	16	Figure 30	Examples of bad accessibility	56
Figure 14	Supplementary welding symbols ..	16			
Figure 15	Structure of a single pass weld	20			
Figure 16	Manual metal arc welding (MMA) .	21			
Figure 17	Schematic diagram gas metal arc welding	22			

LIST OF TABLES

		<i>Page</i>			<i>Page</i>
Table 1	Minimum size (leg length) of fillet welds	5	Table 4	Levels of non-destructive examination (NDE)	42
Table 2	Characteristics of welding processes	24	Table 5	Types of imperfection considered in AS/NZS 1554.1	43
Table 3	Prequalified welding consumables	29
