Construction  
Modellers  
Association Ltd

## National Forum for Steel Detailers

The 2019 Australian Steel Convention provides an excellent opportunity for Construction Modellers and Steel Detailers from around Australia to gather and discuss the issues affecting our industry.

The Australian Construction Modellers Association (ACMA) in conjunction with the ASI is holding a forum style event at the convention to facilitate these discussions.

### **ACMA National Forum - Tuesday 17<sup>th</sup> September 14:30 – 16:30 pm**

The Venue for the Convention and Forum is the Westin Hotel, Sydney.

Information regarding the meeting room location will be available from the Convention Registration desk in the Hotel foyer on the day.

The afternoon session concludes with a combined gathering of steel fabricators, modellers and detailers for networking, drinks and canapes.

Please click on the link to the ASI website for more details on the convention.
