WILL YOU BE JOINING US FOR BREAKFAST?

At DXC Technology we strongly believe that embracing Diversity and Inclusion is good for our people and good for our business. We are keenly aware that whilst we have some exceptional diversity programs like Dandelion, Women in Leadership, Graduates and our Employee Resource Groups, this is not enough. For us, the true benefit comes from an inclusive culture that recognises the unique contributions everyone can make to our success.

Convention attendees are invited to a special Diversity and Inclusion Breakfast in the Westin Sydney Ballroom on Tuesday, 17 September. Over a delicious hot breakfast you will hear from a project panel how the diversity amongst their team boosted the success of their work and implementation. The panel will be followed by a Keynote Address by Rabia Siddique, a lawyer, human rights activist and hostage survivor whose story will inspire you.

If you have not reserved your seat please see the event team at the help desk. It is a session not to be missed.

0715

REGISTRATION OPEN
