

AUSTRALIAN STEEL INSTITUTE

Steel Construction journal listing

Steel Construction from 1967 to the present

Please note that logged in ASI members have access to the content of all these journals through the [eLibrary](#).

1967

Vol. 1, No. 1 - A Future for Steel Structures. A Wargon

Vol. 1, No. 2 - Elastic Analysis of Eccentric Connections. H Harrison

Vol. 1, No. 3 - Massive Welded Girders. E W Phillips

Vol. 1, No. 4 - Composite Construction. S G Silhan / R C Westbrook

1968

Vol. 2, No. 1 - Contemporary Research and Routine Design. M G Lay

Vol. 2, No. 2 - Welding of High Strength Steels. J B Wade

Vol. 2, No. 3 - Universal Columns in High Strength Steels. H B Harrison

Vol. 2, No. 4 - Fire Protection of Steel Structures. R J Bonaldi

Special issue - AS CAI A Review and Explanation. M G Lay

1969

Vol. 3, No. 1 - Buckling of Plane Frames. N S Trahair

Vol. 3, No. 2 - The Computer - A Tool for Structural Designers. P Grundy

Vol. 3, No. 3 - Residual Stresses in Steel Sections. M G Lay / R Ward

Vol. 3, No. 4 - Steel Bridges - Competitive? P Elliott

1970

Vol. 4, No. 1 - City Buildings - First Cost or Maximum Worth? F R Khan

Vol. 4, No. 2 - Sway in Structures. M G Lay

Vol. 4, No. 3 - Jumbo Hangars. AISC

Vol. 4, No. 4 - Steel on the Highway. Reprint

1971

Vol. 5, No. 1 - Tall Steel Buildings - New Approaches. Reprint

Vol. 5, No. 2 - Moment Distribution Methods. M Lowrey

Vol. 5, No. 3 - Steel Highway Bridges - Today and Tomorrow. Reprint

Vol. 5, No. 4 - Car Parks. Reprint

1972

Vol. 6, No. 1 - Dynamic Analysis of Steel Frames. M J Lowrey

Vol. 6, No. 2 - Temperature Effects on Tall Steel Framed Buildings: Part 1 Response of Steel Columns to Temperature Exposure. E R McLaughlin; Part 2 Structural Analysis. H H West / A K Kar; Part 3 Design Considerations. F R Khan / A F Nassetta

Vol. 6, No. 3 – Innovation in Tall Buildings. The Economics of Suspended Structures. P B Edwards; Exposed Steelwork for Multi-Storey Buildings. G B Godfrey; Composite Steel-Concrete Building Frame. D Belford

Vol. 6, No. 4 - Steel Structures Code - The 1972 Version. M G Lay

1973

Vol. 7, No. 1 - Beams and Columns by Computer. D Batten / R Toakley

Vol. 7, No. 2 - Effective Lengths. M G Lay

Vol. 7, No. 3 - Steel Floors. C C Resevsky

Vol. 7, No. 4 - Space Frames. Reprint

1974

Vol. 8, No. 1 - Design of Compression Members. B E Gorenc

Vol. 8, No. 2 - Modern Bridges in Steel. Reprint

Vol. 8, No. 3 - Cold Formed Members. V R Beck

Vol. 8, No. 4 - Economic Advantages of Steel. Reprint

1975

Vol. 9, No. 1 - Prediction of Residual Stresses / European Column Curves. J B Dwight

Vol. 9, No. 2 - The 1975 Changes to AS 1250. M G Lay

Vol. 9, No. 3 - Stiffened Compression Panels. J B Dwight

Vol. 9, No. 4 - Steel Footbridges. AISC

1976

Vol. 10, No. 1 - Highly Restrained Welded Connections. Reprint

Vol. 10, No. 2 - Low Rise Industrial Structures. M G Lay

Vol. 10, No. 3 - Grandstands. Reprint

Vol. 10, No. 4 - Crane Runway Girders. B E Gorenc

1977

Vol. 11, No. 1 - Economy in Tall Buildings. Reprint

Vol. 11, No. 2 - Decision Logic Tables and AS 1250. T J Hogan

Vol. 11, No. 3 - Bolting of Steel Structures. A Firkins / T J Hogan

Vol. 11, No. 4 - Limit State Steel Design Code - A Discussion. B Gorenc / T J Hogan

1978

Vol. 12, No. 1 - Elevated Steel Tanks. D W Ramm

Vol. 12, No. 2 - Standardized Structural Connections. A Firkins / T J Hogan / I R Thomas

Vol. 12, No. 3 - Wall Loads in Steel Bins. P C Arnold / A G McLean

Vol. 12, No. 4 - Fire Engineering Design. Reprint from Swedish Institute

1979

Vol. 13, No. 1 - Design of Fillet Weld Groups. P Swanell; Fillet Weld Design in the AISC Standardised Structural Connections. T Hogan / I R Thomas

Vol. 13, No. 2 - Painting Steelwork. P M Woods / C P Lloyd / A Pavey / M Frost-Drury

Vol. 13, No. 3 - Bearing Stress and Edge Distance. T J Hogan / I R Thomas

Vol. 13, No. 4 - Plastic Design of Steel Frames. Reprint ECCS

1980

Vol. 14, No. 1 - CBA Centre - Sydney. I McKenzie / N Morrison/ R Sim

Vol. 14, No. 2 - Tee Sections. T J Hogan / I R Thomas

Vol. 14, No. 3 - The 1981 Changes to AS 1250. T J Hogan / I R Thomas

Vol. 14, No. 4 - Single Angle Struts. S T Woolcock / S Kitipornchai

1981

Vol. 15, No. 1 - Thin-Walled Beams. R Q Bridge / N S Trahair

Vol. 15, No. 2 - Hollow Sections. J Wardenier

Vol. 15, No. 3 - Cold-Formed Purlins. G J Hancock

Vol. 15, No. 4 - Steel Bridges. A R Smith

1982

Vol. 16, No. 1 - Portal Frame Design. L J Morris

Vol. 16, No. 2 - Wide Span Structures. D T Wright / R G Taylor

Vol. 16, No. 3 - Tapered Masts. R J Veitch

Vol. 16, No. 4 - Composite Columns. R P Johnson / D G Smith

1983

Vol. 17, No. 1 - City Buildings. A Firkins

Vol. 17, No. 2 - Standardized Structural Connections - Five Years On. A Firkins / T J Hogan; Two Recent Long-Span Steel Structures. N Long

Vol. 17, No. 3 - Cold-Formed Columns. G J Hancock

Vol. 17, No. 4 - Economical Steelwork. D L Oakes

1984

Vol. 18, No. 1 - Composite Floors. R Q Bridge

Vol. 18, No. 2 - Fire Protective Products. AISC

Vol. 18, No. 3 - Curving Structural Steel. G Riviezzi

Vol. 18, No. 4 - Guyed Masts. ACADS working party on Guyed Masts

1985

Vol. 19, No. 1 - Tension Bracing. S T Woolcock / S Kitipornchai

Vol. 19, No. 2 - Pin Connections. G Riviezzi

Vol. 19, No. 3 – Fire Testing Simulation - Thermal Responses. I D Bennetts / D J Proe / I R Thomas

Vol. 19, No. 4 –Fire Testing Simulation 1. Mechanical Response 2. Overall Behaviour. I D Bennetts / D J Proe / I R Thomas

1986

Vol. 20, No. 1 – Buckling of Braced Beams. P F Dux / S Kitipornchai

Vol. 20, No. 2 - Structural Steel Fire Protection. C I Smith

Vol. 20, No. 3 – Portal Frame Deflections. S T Woolcock / S Kitipornchai

Vol. 20, No. 4 - Steel Construction in Canada. J Mullins / P Saunderson

1987

Vol. 21, No. 1 - Developments in Steel High Rise Construction in Australia. D C Gillett / K B Watson

Vol. 21, No. 2 - Limit State Design Rules for Steel Beam-Columns. R Q Bridge / N S Trahair

Vol. 21, No. 3 - High Strength Quenched & Tempered Steels in Structures. J E Croll

1988

Vol. 22, No. 1 - The State Bank Centre - A Concept in Steel. R McPharlin; The Structural Steel Fabricator in Sub-Contract.

Vol. 22, No. 2 - Ductility of Simply-Supported Composite Beams. M Patrick / R Q Bridge

Vol. 22, No. 3 - Serviceability Performance of Steel Joints. R Kohoutek

Vol. 22, No. 4 - High Rise Residential Buildings - Staggered Truss System. R K Huzzard / J W Larson

1989

Vol. 23, No. 1 - Recent Developments in Australian Standards for Steel Flat Products. S Kotwal / R Doherty

Vol. 23, No. 2 - Stability of I-Beams Under Self-Weight Lifting. P F Dux / S Kitipornchai

Vol. 23, No. 3 - Design of Continuous Composite Slabs - The Issue of Ductility. M Patrick; Composite Beam Web Penetration Design Methods - Putting Theory into Practice. M Patrick

Vol. 23, No. 4 - Plastic Bending Tests of Cold-Formed Rectangular Hollow Sections. S W Hasan / G J Hancock

1990

Vol. 24, No. 1 - Safe Load Tables and the Human Dimension. M G Stewart

Vol. 24, No. 2 - Fabrication Cost of Structural Steelwork. A Firkins / R Hemphill

Vol. 24, No. 3 - A New partial Shear Connection Strength Model for Composite Slabs. M Patrick

Vol. 24, No. 4 - Predicting the Ultimate Structural Behaviour of Transmission Towers. F G Al-Bermani / S Kitipornchai

1991

Vol. 25, No. 1 - Construction Safety: Analysis and Testing of a Static Line System. P H Dayawansa / C C Goh / R Wilkie

Vol. 25, No. 2 - Design of angles to AS 4100 - 1990. P H Dayawansa / C C Goh / I D Bennetts ; AS 4100 - 1990 Hints for Designers. A A Syam

Vol. 25, No. 3 - Steel Headframes for Mines. A J May; AS 4100 - 1900. Hints for Designers. Design Capacity Tables for Structural Steel - A Quick Access Guide. A A Syam

Vol. 25, No. 4 - RHS Tubular Sections Grade C450. Plate Slenderness Limits. X-L Zhao / G J Hancock

1992

Vol. 26, No. 1 - Beam Formulae. A Syam

Vol. 26, No. 2 - Design of Single Storey Industrial Buildings for Fire Resistance. A J O'Meagher / I D Bennetts / P H Dayawansa / I R Thomas

Vol. 26, No. 3 - Design of Steel Structures for Fire Resistance in Accordance with AS 4100. I R Thomas / I D Bennetts / D J Proe

Vol. 26, No. 4 - An Approximate Simple Plastic Analysis of Portal Frame Structures. S P Pikusa / M A Bradford

1993

Vol. 27, No. 1 - Design of Unbraced Beams. N S Trahair / T J Hogan / A A Syam

Vol. 27, No. 2 - Testing and Design of Bondek II Composite Slabs for Vertical Shear. M Patrick

Vol. 27, No. 3 - Design of Unbraced Cantilevers. N S Trahair ; Deflections in Pinned-Base Haunched Gable Frame. S Parsanejad

Vol. 27, No. 4 - Design Capacity Tables for Structural Steel. A A Syam / T Hogan

1994

Vol. 28, No. 1 - Partial Shear Strength Design of Simply-Supported Composite Beams - Draft Revision of AS 2327, Part 1. M Patrick / P H Dayawansa/ R Wilkie / K B Watson

Vol. 28, No. 2 - Background to the New Loading Code - Minimum Design Loads on Structures AS 1170 Part 4: Earthquake loads. J W Woodside; Earthquake Resistant Design of Steel Structures - An Introduction for the Practising Engineer. L Hutchinson / L Pham / J L Wilson

Vol. 28, No. 3 - Structural Analysis to AS 4100 - An Introduction. Paper 1. Introduction to Methods of Analysis in AS 4100 - 1990. R Q Bridge; Paper 2. Elastic Method of Analysis of Rigid Jointed Frames Including Second Order Effects. G J Hancock; Paper 3. Second Order Elastic Analysis Solution Technique. G J Hancock

Vol. 28, No. 4 - Wind Loads on Steel-Framed Low-Rise Buildings. J D Holmes / M J Syme

1995

Vol. 29, No. 1 - Benchmarks for Nonlinear Elastic Frame Analysis. J Petrolito / K A Legge

Vol. 29, No. 2 - Steel Lateral Load Resisting Systems for Buildings of up to 8 Levels. N Van der Kreek

Vol. 29, No. 3 - A Guide to the Requirements for Engineering Drawings of Structural Steelwork. Edited by A A Syam AISC

Vol. 29, No. 4 - Australian Composite Structures Standard AS 2327, Part 1: Simply-Supported Beams. M Patrick / P H Dayawansa / I Eadie / K B Watson / N van der Kreek

1996

Vol. 30, No. 1 - Simplified Torsion Design of Compact I-Beams. N S Trahair / Y L Pi

Vol. 30, No. 2 - Costing of Steelwork from Feasibility through to Completion. K B Watson / S Dallas / N van der Kreek / T Main

Vol. 30, No. 3 - An Update on the Corrosion Process and Protection of Structural Steelwork. R A Francis

Vol. 30, No. 4 - Design of Tubular Members and Connections using Amendment Number 3 to AS 4100. X L Zhao / G J Hancock / R Sully

1997

Vol. 31, No. 1 - Australia's First Seismic Resistant Eccentrically-Braced Frame. P McBean

Vol. 31, No. 2 - Tests on Static Line Systems. P H Dayawansa / R Ralph

Vol. 31, No. 3 - Design of Tapered Haunched Universal Section Members in Portal Frame Rafters. TJ Hogan / AA Syam

Vol. 31, No. 4 - Occupational health and safety: Best practice study of erection of steelwork at Sydney showground - Homebush Bay. John Holland Construction & Engineering Pty Ltd and WorkCover New South Wales

1998

Vol. 32, No. 1 - Design and documentation deficiency and its impact on steel construction. P A Tilley

Vol. 32, No. 2 - Innovative tied portal steel structure achieves a world first. A N Pollard

Vol. 32, No. 3 - Inorganic zinc or galvanizing: choosing the ideal corrosion protection for structural steel. R A Francis

Vol. 32, No. 4 - Full scale experiments of a steel portal frame building. T J Heldt / M Mahendran

1999

Vol. 33, No. 1 - Occupational health and safety: Welding fume minimisation guidelines. A A Syam / G Saunders G Rhyder / A Forbes

Vol. 33, No. 2 - The evolution of Australian Material Standards for structural steel. S Kotwal; The evolution of Australian Material Standards for Pressure Vessel Plate. S Kotwal; Steel stocked in Australia - A Summary for designers of heavy steelwork. R Keays

Vol. 33, No. 3 - Information technology in the Australian Steel Construction Industry. P Burns

Vol. 33, No. 4 - Australia's grand stadia: Stadium Australia Colonial Stadium. D McDonald / M Sheldon / R Sheldon

2000

Vol. 34, No. 1 - Assessment of existing structures: A strength limit state appraisal of hot driven rivets. G F Barker

Vol. 34, No. 2 - Lateral buckling design of portal frame rafters. N S Trahair

Vol. 34, No. 3 - Design Details for After Fabrication Galvanized Structures. Galvanizing Association of Australia

Vol. 34, No. 4 - AISC - IEAust Special Joint Issue. Engineering Documentation Standards - Invest in design to reduce project cost. Several Papers from a seminar in Melbourne on May 9, 2000

2001

Vol. 35, No. 1 - An engineering Insight to the behaviour of tensile bolted joints. S. Fernando; Design of steel roof and wall cladding systems for pull out failures. M. Mahendran

Vol. 35, No. 2 - An overview of design aids for structural steelwork . Peter Kneen

Vol. 35, No. 3 - A competitive analysis of Australia's steel construction industry . ISS and AISC

Vol. 35, No. 4 - An overview of recent research in steel structures in Australia. Dr Tim Wilkinson

2002

Vol. 36, No. 1 - Scenario planning for the Australian steel construction industry. Rupert Grayston

Vol. 36, No. 2 - Design of pinned column base plates. Gianluca Ranzi and Peter Kneen

2003

Vol. 37, No. 1 - Design of column and beam splices. Gianluca Ranzi and Peter Kneen ; Design capacity tables - Pinned column bases. Gianluca Ranzi and Peter Kneen

Vol. 37, No. 2 - Recent research and development in composite steel beams with precast hollow core slabs. Dr Dennis Lam and Dr Brian Uy

2004

Vol. 38, No. 1 - Fatigue design of steel structures. Paul Grundy; Fatigue assessment of wrought iron structures. Paul Grundy

Vol. 38, No. 2 - Rational compact web side plate connections for beams. Australian Steel Institute

2005

Vol. 39, No. 1 - Floor vibrations in composite steel office buildings. Anthony Ng and Gary Lum

Vol. 39, No. 2 - Are you getting the bolts you specified? Saman Fernando and David Hitchen

2006

Vol. 40, No. 1 - World best practice in steel construction: UK and international markets, JIT fabrication and issues. Scott Munter; New technology delivers fabrication throughput efficiencies. Christian Colombo

Vol. 40, No. 2 - Commodities and coating costs. John Robinson; The outlook for the global economy. David B Ratterman

2007

Vol. 41, No. 1 - The development of the residential steel framing industry in Australia. Ken Watson

Vol. 41, No. 2 - ASI limit state steel connections design series - Part 1 – 2007. Tim Hogan and Scott Munter

2008

Vol. 42, No. 1 - Guide to the use of fire protection materials. John Rakic

2009

Vol. 42, No. 2 - ASI limit states steel connections design series - Part 2 – 2009. Tim Hogan and Nick van der Kreek

Vol. 43, No. 1 - An updated overview of design aids for structural steelwork. Tim Hogan

2010

Vol. 43, No. 2 – Design model for light bracing cleat connection. Tim Hogan and Richard Collins

Vol. 44, No. 1 - Aspects of composite steel beam design: Strength and ductility of headed stud connectors welded in modern profiled steel sheeting. Stephen Hicks; Evaluation of footfall vibration in commercial buildings. Tim Marks

2011

Vol. 44, No. 2 - Harmonising the Australian standard AS 4100 Steel structures. Greg Hancock

Vol. 45, No. 1 - Specifying corrosion protection on steel. Rob Francis

2012

Vol. 45, No. 2 - Wind-induced fatigue of steel structures: a simplified design approach to AS 4100. John Holmes and Dean Genner

Vol. 46, No. 1 - A method for estimating in-plane forces on roller shutter door. Haddad, G. and Woolcock, S.T.

2014

Vol. 46, No. 2 - ASI limit state structural steel tubular connection series - 2014: Background and summary. Key, P.W.

Vol. 47, No. 1 - Specification of threaded bar in structural applications. Fernando, S.

2015

Vol. 47, No. 2 - Design and detailing for corrosion protection of steel structures. Francis, R., Golding, P. and Key, P.

2016

Vol. 48, No. 1 - Blind bolted connections for unfilled hollow sections in low rise construction. Lee, J., Gad, E., Fernando, S., Notini, M. and Goldsworthy, H.

2017

Vol. 48, No. 2 - Engineer's risk mitigation - The case for improved specification of structural steelwork. Key, P. and Gibson, G.

2018

Vol. 49, No. 1 – The use of high strength quenched and tempered steel in structural applications in Australia. Suwart, J.

Vol. 49, No. 2 – Latest trends in cold-formed design and construction in Australia. Hancock, G.J.
